

Spring-Grip Side-Mount External Retaining Ring  
for 1/4" OD

In stock  
\$9.00 per pack of 100  
98398A120

Ring Type	Retaining
For Shaft End Type	With Retaining Ring Grooves
Retaining Ring Style	E
Retaining Ring Type	External
Material	Black-Phosphate Steel
For OD	1/4"
For Groove Diameter	0.21"
Width	0.047"
Ring OD	0.527"
Thickness	0.025"
Min. Hardness	Rockwell C47
Specifications Met	ASME B18.27.3
Magnetic Properties	Magnetic
RoHS	Compliant

Also known as bowed E-style rings, these have a concave design that provides spring-like retention for a tight hold. They snap into the groove from the side of the shaft. Ring OD is measured with the ring uninstalled. The black-phosphate finish resists rust. Use a [side-mount retaining ring tool](#) (sold separately) to push the rings onto the shaft.
